Solution Management

Solution Management is a leading provider of business system software consulting, development, implementation and support services for manufacturers, distributors and service organisations.

We provide for:

- Evaluation of the status of your organisation relative to your system and software requirements.
- Systems analysis and concept design
- Software development and testing
- Installation, configuration and implementation.
- Training and support.
- Custom scripts and EDI for business to business and web shop requirements.
- Mobility solutions using internet connected tablets, notebooks and laptops.
- Report writing.

We have provided business system software and improvement solutions for many hundreds of organisations since the 1990s.

Our team has the diverse range of people and technical skills appropriate for working with today's business systems and database technologies.

We are committed to maintaining a high standard of project quality, health & safety and environmental awareness within our organisation.

We would welcome the opportunity to provide a proposal for your review, and to be of service to your organisation.

SOLUTION MANAGEMENT is:

A professional company with a commitment to achieve Quality through our professional values, loyalty, honesty, trustworthiness, reliability, and self motivation.

Our quality objectives are to:

1. Provide a managed improvement solution by using world class project planning and implementation techniques.
2. Focus on customers' expectations by listening, searching, evaluating and identifying requirements.
3. Provide our customers with peace of mind with a detailed proposal up front, prior to commencement of assignments.
4. Provide proposals free of charge and without obligation within five working days from initial assessment.
5. Attain a long term business relationship with our customers by providing personal, friendly, loyal and reliable service.
6. Continually improve our services and standards, embracing the principles of Business Excellence and the International Quality Management Standard ISO 9001.
7. Ensure we are a responsible employer and each staff member understands their responsibility to comply with the customer's Environmental and Safety procedures when onsite.
